RE: Norwich University - Doyle Hall
Project Number: 08-6065

Dear Ben,

Thank you for doing such an outstanding job at the Doyle Hall project at Norwich University. You and your crew always had a plan, were prepared to execute the plan and at the same time conforming to our Project Schedule while working safely.

Your professionalism was refreshing and appreciated.

We at Engelberth Construction enjoyed working with you and look forward to working with you on future projects. We would highly recommend your firm to other construction companies.

Sincerely,
